PROFILE

Frontend developer with a strong interest in backend development. I enjoy working from the ground up, establishing a solid foundation early in a project. I value thoroughness over shortcuts at every stage.

With nearly ten years of experience in film and TV, I have developed strong skills in project management, teamwork and prioritisation. I am always eager to learn and never shy away from a challenge. Problem-solving is my greatest strength.

SKILLS

Frontend	Backend	Databases	AI	Other
CSS/SCSS	Node.js	MongoDB	Claude	Git
TypeScript	Express	Mongoose	Chat bots	Playwright
React		Prisma	Skills	Docker
Next.js		Postman		Kubernetes
SvelteKit
